

Physician Information Exchange Working Group Charge

The Physician Information Exchange (PIE) Working Group reports to the Board and operates under the following charge.

1. The PIE Working Group will assist the Board to achieve IAMRA's Goals* as set by the Board.
2. The PIE Working Group's work program will include, but not be limited to the information sharing objectives and targets set by the Board from time to time. Currently, these objectives and targets are as follows:
 - Goal 3 a) Produce resources relevant to leveraging technology in pursuit IAMRA's purpose, including the sharing of fitness to practice/disciplinary information among IAMRA members
Targets:
 - i. Evaluation of data sharing pilot project
 - ii. Go/no go decision on data sharing system
 - Goal 3 b) Facilitate the efficient and effective use of Certificates of Good Standing (CGS)/Certificates of Professional Standing (CPS) by all medical regulatory authorities
Target:
 - i. Maintain and promulgate a list of MRAs willing and able to enter into electronic CGS/CPS sharing agreements
 - Goal 3 c) With reference to member feedback, produce resources on the use and adoption of technology in regulation and healthcare
3. The PIE Working Group will also advise the Board on any other matters it considers to be relevant to the pursuit of IAMRA's Vision, Goals and Objectives.
4. The PIE Working Group will provide regular reports to the Board and a report to the Members General Assembly.

*IAMRA's current Goals, are as follows:

1. Creating a global community of medical regulators by expanding IAMRA's membership, partnerships and impact, and increasing value to members;
2. Supporting and encouraging members to provide, in the interest of the public, regulatory practices and systems that strive for best practice and contribute to the provision of safe and effective health care by the medical profession;
3. Leveraging technology, i) in pursuit IAMRA's purpose, including the sharing of fitness to practice/disciplinary information among IAMRA members; and ii) guiding members on the adoption of technology in regulation and healthcare.
4. Strengthening the evidence base for regulation by encouraging research and evaluation of regulatory processes, and the publication and sharing of findings.
