

### **Physician Information Exchange Working Group Charge**

The Physician Information Exchange (PIE) Working Group reports to the Management Committee and operates under the following charge.

1. The PIE Working Group will assist the Management Committee to achieve IAMRA's Goals\* as set by the Management Committee from time to time.
2. The PIE Working Group's work program will include, but not be limited to the information sharing objectives and targets set by the Management Committee from time to time. Currently, these objectives and targets are as follows:
  - a. Produce resources relevant to leveraging technology in pursuit IAMRA's purpose, including the sharing of fitness to practice/disciplinary information among IAMRA members.  
Targets:
    - Evaluate the proactive data sharing system
    - Explore available data sharing platforms and user interfaces to enable and advance the data sharing pilot project
  - b. Facilitate the efficient and effective use of Certificates of Good Standing (CGS)/Certificates of Professional Standing (CPS), or equivalents, by all medical regulatory authorities  
Targets:
    - Review, update and promulgate to all members the revised CGS/CPS guidelines
    - Update a list of regulators who are willing and able to enter into electronic CGS/CPS (or equivalents) sharing agreements.
3. The PIE Working Group will also advise the Management Committee on any other matters it considers to be relevant to the pursuit of IAMRA's Vision, Goals, Objectives and Targets.
4. The PIE Working Group will provide regular reports to the Management Committee and a report to the Members General Assembly.

\*IAMRA's current Goals, are as follows:

1. Creating a global community of medical regulators by expanding IAMRA's membership, partnerships and impact, and increasing value to members;
2. Supporting and encouraging members to provide, in the interest of the public, regulatory practices and systems that strive for best practice and contribute to the provision of safe and effective health care by the medical profession;
3. Leveraging technology, i) in pursuit IAMRA's purpose, including the sharing of fitness to practice/disciplinary information among IAMRA members; and ii) guiding members on the adoption of technology in regulation and healthcare.
4. Strengthening the evidence base for regulation by encouraging research and evaluation of regulatory processes, and the publication and sharing of findings.
