

IAMRA Regulatory Best Practice Working Group Charge

The Regulatory Best Practice Working Group reports to the Board and operates under the following charge.

1. The Regulatory Best Practice Working Group will assist the Board to achieve IAMRA's Goals* as set by the Board.
2. The Regulatory Best Practice Working Group's work program will include, but not be limited to objectives and targets set by the Board related to supporting and encouraging members to provide, regulatory practices and systems that strive for best practice and contribute to the provision of safe and effective and equitable health care by the medical profession. Currently, these objectives and targets are as follows:
 - Goal 2 a) With reference to member feedback [refer Goal 1, Objective a)], provide members with relevant and useful written guidelines, policy statements and short-burst communications, addressing:
 - emerging issues in regulation, including those that are externally or environmentally driven; and
 - best practice across the range of regulatory functions
 - Targets:
 - i. produce written guidelines, policy statements and short-burst communications, including:
 - Policy statement on Cultural Safety
 - Policy statements arising from webinars (where appropriate)
 - Short burst communications on emerging issues in regulation
3. The Regulatory Best Practice Working Group will advise the Board on any other matters it considers to be relevant to the pursuit of IAMRA's Vision, Goals and Objectives.
4. The Regulatory Best Practice Working Group will provide regular reports to the Board and a report to the Members General Assembly.

*IAMRA's current Goals, are as follows:

1. Creating a global community of medical regulators by expanding IAMRA's membership, partnerships and impact, and increasing value to members;
2. Supporting and encouraging members to provide, in the interest of the public, regulatory practices and systems that strive for best practice and contribute to the provision of safe and effective health care by the medical profession;
3. Leveraging technology, i) in pursuit IAMRA's purpose, including the sharing of fitness to practice/disciplinary information among IAMRA members; and ii) guiding members on the adoption of technology in regulation and healthcare.
4. Strengthening the evidence base for regulation by encouraging research and evaluation of regulatory processes, and the publication and sharing of findings.
